## Work Experience

---

### Web Designer / Developer

DreamSoft4U  
February 2022 – Present  
Jaipur, India

As a Jr. Web Designer and Frontend Developer at Dreamsoft4u Pvt. Ltd. since February 2022, I have been responsible for crafting visually engaging, user-friendly websites while ensuring seamless frontend functionality. My role encompasses the entire design-to-development workflow — from conceptualizing wireframes and prototypes to implementing responsive, interactive web interfaces using HTML, CSS, JavaScript, and modern frontend frameworks. Collaborating closely with UI/UX designers, backend developers, and clients, I translate design concepts into high-quality code that aligns with business goals and delivers excellent user experiences across devices. I am involved in optimizing site performance, debugging frontend issues, and ensuring cross browser compatibility.
